PROFESSIONAL SUMMARY

Results-driven Python Full Stack Developer with hands-on experience building full-stack web applications using Python, Django, Flask, and FastAPI on the backend and React.js on the frontend. Skilled in RESTful API design, database integration, and responsive UI development with JavaScript (ES6+) and Redux Toolkit. Demonstrated ability to deliver end-to-end projects, from UI design to cloud deployment, with strong ownership, performance focus, and collaborative teamwork.

INTERNSHIP EXPERIENCE

Full Stack Development Intern *NoviTech R&D Private Limited, Coimbatore | May 2025 – Jun 2025*

- Completed a one-month Full Stack Development internship at NoviTech R&D Private Limited, Coimbatore, gaining hands-on, industry-oriented experience in end-to-end web application development
- Built and debugged full stack web application modules using Python, Django/Flask on the backend and React.js, JavaScript, HTML5, and CSS3 on the frontend
- Practiced RESTful API design, database integration, and version control workflows using Git and GitHub within a collaborative development environment
- Strengthened problem-solving, debugging, and teamwork skills while working on real-world development tasks under mentorship; internship completion certified by NoviTech R&D Pvt. Ltd. (Certificate ID: NT_T10in1FSD42)

TECHNICAL SKILLS

Backend: Python, Django, Flask, FastAPI, Node.js, Express.js, RESTful APIs

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Redux Toolkit

Styling: Tailwind CSS, Bootstrap, Flexbox, CSS Grid

Database: PostgreSQL, MySQL, MongoDB, Firebase

Tools: Git, GitHub, VS Code, Postman, Vercel, Render

PROJECTS

3D Product Visualization Studio Website *HTML5 | CSS3*

- Developed a full-stack multi-page portfolio platform for a 3D product visualization and CGI studio, showcasing photorealistic renders and case-study breakdowns
- Built responsive navigation across Home, About, Works, Services, and Contact pages with an animated hero section and embedded video background
- Designed a dynamic project showcase and client testimonial section to present case studies, technical specifications, and performance benchmarks
- Implemented a fully responsive layout ensuring consistent rendering and performance across desktop and mobile devices

Netflix Clone | *HTML5 | CSS3*

- Recreated the Netflix landing and browsing experience using pure HTML5 and CSS3, with no JavaScript frameworks or libraries
- Built a pixel-accurate hero banner, genre carousels, and content rows using CSS Flexbox and Grid for responsive alignment
- Implemented hover-based scaling effects on thumbnails and a fixed navigation bar with a scroll-triggered background change
- Ensured cross-device responsiveness using media queries, optimizing layout for mobile, tablet, and desktop screens
